#### **APPLICATION NOTES:**

- NPC Series cannot be used in coupling, time-constant or other circuits that are greatly affected by leakage current.
- NPC parts are polarized so be sure to verify component orientation when mounting components.
- 3. Do not apply over voltage exceeding the rated voltage.
- Do not apply ripple current over the specified maximum ripple current rating.

### RECOMMENDED REFLOW SOLDERING PROFILE

## NOTES ON REFLOW SOLDERING:

- 1. SAC alloy (+217°C) re ow soldering compatible
- 2. Soldering heat limits apply to the top surface of component
- 3. If you have concerns about your re ow soldering profile review them with NIC to insure compatible [tpmg@niccomp.com]
